

Website Maintenance Plan

For Websites on Wordpress Framework, 20 pages or less.

Our website maintenance plan includes Chariot Creative accessing your company's website 1-3 times per month and updating any outstanding problems with the site framework, updating any plugins, and patching any security issues.

Monthly Maintenance Includes:

- Updates to site framework and all plugins
- Quality checks on your site after each update
- Daily Site Backups, Data Storage, & Recovery
- Security on Multiple Levels (files, login sessions, database injection, malicious code, and more)
- Uptime Monitoring and Reports
- Complete Monthly Maintenance PDF Report showing updates and health of your website.

Monthly Website PDF Reports:

Our maintenance plan includes a monthly report showing website up-time, all updates made, security, backups status, and more in the past 30 days.

[See report section examples here >>](#)

Security is a constant battle:

As often as daily, technology is updated to keep out hackers, spam robots, and spammers. These hackers repeatedly find ways around each solution, and it's an ongoing battle. Therefore, updates are required to keep your site secure and functioning properly. Letting your site go unchecked for even a month without updates could mean getting hacked, becoming a resource for a mess of hidden spam links, Google penalties, losing your site files, etc. Recovery usually requires hundreds or thousands of dollars of work, and not all files may be recoverable.

\$200 per month

with 1 year agreement

Includes monthly report
